Functional Requirements (FRS)

1. Project Summary

1.1. Purpose

The Shift Roster & Claims Management System will automate employee scheduling, claims submission, payroll calculations, and compliance monitoring. This system will replace manual processes with a centralized web-based solution

1.2. Main Business Problem

The organization currently faces:

- Manual shift scheduling errors
- Incorrect payroll calculations
- Lack of compliance validation
- Slow claim approval processes
- Difficulty tracking employee work hours

1.3. Primary Objectives

Developers will build a system that:

- Manages employee records
- Generates rotation-based shift rosters
- Assign employees to shifts
- Allow employees to submit claims
- Allow admins to approve claims
- Calculates payroll automatically
- Validates labour compliance rules
- Generate reports

Functional Requirements (FRS)

2. System Architecture Diagram

This diagram shows how users (Admin and Employee) interact with the system through a React frontend, which communicates with a backend API (ASP.NET Core or Node.js). The backend processes business logic and connects to a PostgreSQL database. External services like email, file storage, and reporting are also integrated.

Explanation:

Users access the system via a web browser. The frontend handles user interface and sends requests to the backend API. The backend manages logic such as payroll, claims, and roster generation. Data is stored in PostgreSQL. External services support notifications, reports, and backups

3. Entity Relationship Diagram (ERD)

This diagram represents the database structure, including all tables and how they relate to each other.

Functional Requirements (FRS)

Explanation:

The ERD shows core tables such as Employees, Teams, Shifts, Claims, and Payroll. Relationships include one-to-many links (e.g., one team has many employees). Rotation tables control scheduling, while claims and approvals link to payroll calculations. This ensures proper data organization and system functionality.

Functional Requirements (FRS)

4. Designs For Admin

4.1. Login Page

The login page features a blue header with the system name and a shield icon. The main content area is white with a blue border. It contains a 'Welcome Back!' message, a sign-in prompt, and input fields for email and password. There are also checkboxes for 'Remember me' and a 'Forgot Password?' link. A blue 'Sign In' button is at the bottom. The footer shows the copyright notice.

4.2. Admin Dashboard

Functional Requirements (FRS)

4.3. Employee Management

ID	Name	Team	Role	Rate (\$/hr)	Status	Action
EMP001	Musheer Khanhali	Network Ops	Lead Developer	\$100.00	Active	Edit Delete
EMP002	Levanga Aphane	Security Ops	Developer	\$100.00	Active	Edit Delete
EMP003	Milke Nambanda	Security Ops	DevOps	\$100.00	Active	Edit Delete
EMP004	Dingha Mathahala	Security Ops	Junior Developer	\$100.00	Active	Edit Delete
EMP005	Bashir	Service Desk	DevOps	\$100.00	Active	Edit Delete

4.4. Roster/Schedule

Employee	Mon 19 May	Tue 20 May	Wed 21 May	Thu 22 May	Fri 23 May	Sun 25 May
Musheer Khanhali	Day	Night	Grave	Day	Off	Night
Levanga Aphane	Night	Day	Day	Night	Night	Day
Milke Nambanda	Grave	Day	Day	Night	Night	Grave
Dingha Mathahala	Day	Off	Day	Night	Grave	Day
Bashir	Night	Day	Off	Day	Day	Night

Legend: Day Shift (06:00 - 14:00), Night Shift (14:00 - 22:00), Grave Shift (22:00 - 06:00), Off Day

Note: Roster is subject to change. Please check regularly.

4.5. Claim Submission (Employee view)

Claim Details

Claim Date: 20/05/2025

Shift Type: Night Shift

Hours Worked: 8

Overtime Hours: 2

Is Public Holiday? ☐ Yes ☒ No

Description / Notes: Network incident - Extra hours worked.

4.8. Reports and Exports

Functional Requirements (FRS)

4.9. Compliances and Violations

The screenshot shows the 'Compliance' section of the 'NOC ROSTER & CLAIMS MANAGEMENT SYSTEM'. It features a table with 7 columns: ID, Employee, Date, Violation, Severity, Status, and Action. There are 6 rows of data. The table is paginated, showing 1 to 5 of 6 entries.

ID	Employee	Date	Violation	Severity	Status	Action
CMPO06	Musheha Khazhalani	18/05/2025	Exceeded 48 hours/week	High	Open	View
CMPO05	Lesego Aphone	17/05/2025	Insufficient Rest Period	Medium	Open	View
CMPO04	Mpho Nembangula	16/05/2025	Exceeded Night Shifts Limit	High	Open	View
CMPO03	Dinogo Makhalola	15/05/2025	Missing Meal Break	Low	Resolved	View
CMPO02	Bashir	14/05/2025	Exceeded 48 hours/week	High	Resolved	View

Showing 1 to 5 of 6 entries

5. Designs for the Employee

5.1. Login Page

The screenshot shows the 'Employee Sign In' page of the 'NOC ROSTER & CLAIMS EMPLOYEE PORTAL'. The page has a light blue background with a white login form in the center. The form includes fields for 'Email' and 'Password', a 'Remember me' checkbox, a 'Forgot Password?' link, and a 'Sign In' button. The copyright notice '© 2025 NOC Roster & Claims Management System' is at the bottom.

CLM018	14/05/2025	Grave Shift	8	2	No	Approved	View

Showing 1 to 4 of 4 entries

5.7. PaySlips

The screenshot shows the 'PaySlips' section in the NOC ROSTER & CLAIMS EMPLOYEE PORTAL. The page is titled 'My Payroll > PaySlips'. It includes a sidebar with navigation links: Dashboard, My Profile, My Roster, My Claims, My Approvals, My Payroll (selected), My Reports, Certifications, Settings, and Logout. The main content area shows a table of pay slips with columns: Month, Amount, and Download icon.

Month	Amount	Download
May 2025	R11,500.00	Download
April 2025	R10,250.00	Download
March 2025	R9,800.00	Download

May 2025 Summary

Normal Pay	R8,000.00
Overtime Pay	R2,100.00
Holiday Pay (R100/hour)	R1,400.00
Total Earnings	R11,500.00

Note: Holiday pay calculated at R100.00 per hour.

Functional Requirements (FRS)

5.8. Notifications

5.9. Profile Settings

6. Deployment Plan

Code will be Managed in GitHub and Deployed to a server with backend API and PostgreSQL database

7. Project Timeline

- **Week 1:** Project Setup & Database Design
- **Week 2:** Authentication & Employee Module
- **Week 3:** Team & Shift Management
- **Week 4:** Rotation Cycle & Roster Generation

Functional Requirements (FRS)

- **Week 5:** Claims & Approval Module
- **Week 6:** Payroll & Compliance
- **Week 7:** Reporting & Testing
- **Week 8:** Final Review & Deployment

The project is divided into 8 weeks, following the development priority defined in the system. Each module is built step-by-step to ensure stability and proper integration.
